Professional Experience and Curriculum Vitae

Hello my name is Scott Staley, I have been a photographer for several years. I started taking pictures soon after I retired at the age of 42. I am self taught, I've taken a few courses and read a few books but I never pursued a degree in art I believe that everyone has a inborn artistic talent. Some of us tap into this ability and others do not . It doesn't take a lot of work to discover the beauty of God's creation. Yet some of us refuse to see. Some of my work has been featured on a local T.V. station and in one of the area newspapers . I am a photographer for the Baptist convention of Pennsylvania and south Jersey Disaster Services. I have also been a church photographer for nearly four years.
