Professional Experience and Curriculum Vitae

I'm a photographer & graphic designer. I love to mix my photography with graphic design, specifically pattern design. Seeing and creating beauty where others don't see it is a huge passion of mine. I've worked in various aspects of the media- radio stations, record companies, photography studios, fashion runway shows, magazine companies, marketing services, production companies, along with numerous freelance opportunities, so I am incredibly versatile. While I have had experience with many types of media, my true passion is beauty/fashion photography. That being said, no matter what media I am working in, I put my whole heart into it.

Previous Clientele

Please kindly get in touch for more information.
