Professional Experience and Curriculum Vitae

I have always been interested in the art of photography since I studied fine art in college. In my early 20s, I caught the international travel bug and ever since I've been obsessed with freezing in time the beauty that is all around us. I dream about traveling to destinations where I can spend hours searching for that perfect, interesting, colorful, amazing, and "not your typical" shot. I'm not huge into retouching or "adding" to the photo through technology — cool though it may be. I try to capture the light as I see it and hope for the best shot possible (gotta love digital). Sometimes it works and sometimes it doesn't.
