Professional Experience and Curriculum Vitae

I am self-taught and have been taking photographs for over 20 years, with most of my work being sports photography.

However I now work in the lifestyle and wedding field.

All my work is done on, and inspired by, the location(s) I work in, this is my style and I do not undertake studio work.

I'm always looking for models to work with on a TFCD basis and I'd love to hear from you if you are undertaking TFCD work.

If you have ideas or poses you want to work on I am very open to any suggestions you may have before and during a shoot and I am happy to try different things.

I do like active communications by e-mail before the shoot to ensure time; date, details of the shoot, etc are discussed prior to the actual shoot.

I am willing to answer any questions you may have either, before, during or after the shoot.

Please feel free to drop me an email if you've any questions and I will do my best to answer your questions.

Previous Clientele

Please kindly get in touch for more information.

Awards and Accolades
