Professional Experience and Curriculum Vitae

Experience a world of the unspoken homoerotic.

Male sex appeal, unvocalized desires, kink, perversion and all that is considered naughty, and not right, is Drasko Bogdanovic.

Raised in Sarajevo during the Bosnian conflict, Drasko's view of real world strife strongly influences his photographic view. His subjects are raw, a little filthy - the message is to the point. Inspired by film noir and German sexual proclivities, Drasko is credited with his ability to expose the raw, often-missed angles of sexuality.

Whether still or motion photography, the message is simple - there are no rules, sexuality has no bounds, all is right with the perverse.
