Simply put, a RoofStar Guarantee eliminates worry from the roofing equation. Only we give you access to the best materials and the most reliable contractors and installers in the business. Plus, independent, third-party inspectors are on your side, making sure things are done right by performing inspections before, during and after installation. And if there ever is a problem, it's in our own best interest to make sure things are resolved and you're happy. Which should come as a relief, because there are plenty of things in life to worry about — the quality of your roof shouldn't be one of them.

Roofing: It's what we do.

Residents of The Martin, unfamiliar with mind-numbing yard work, may mistake a "lawnmower" for a cocktail at Palace Kitchen.

The Martin, it's not your father's condo. To the contrary, it's a refreshing mix of modern design and techno-organic-modular with a bit of film and pop culture thrown-in for good measure. What's more, each until in this 23-floor community will be located right next door to the Cinerama — and a world away from the drudgery of lawn care.

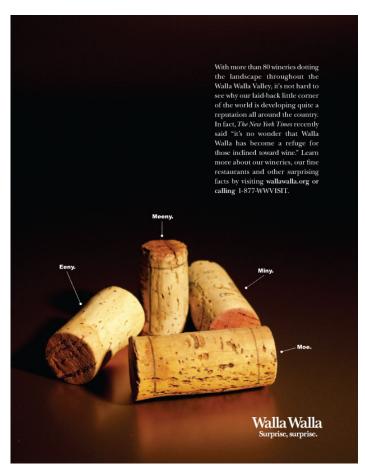

The Martin. Use less. Recycle more. Repeat.
