Professional Experience and Curriculum Vitae

I am Carly Ayres, born and raised in the Sunshine State and finally adapting to a cooler climate as I complete my BFA in Industrial Design at the Rhode Island School of Design. Always keen in math and science with an interest in art and design, I found myself able to synthesize both in the field Industrial Design.

I like to make things all the time.

I work for an *awesome* lecture series called CreativeMornings. I'm a contributor for Core77 and write a few things elsewhere. Currently, I'm figuring out what to do with my life when I graduate this May.

If you have any suggestions, feel free to drop me a line.

Other than that, things that make me smile include sharp pencils, color-coded organization, and gruyere cheese.

Previous Clientele
