## Professional Experience and Curriculum Vitae

Together with its partners, Clínica de Arquitectura | Architectureclinic, dedicates itself to the design and rehabilitation of buildings, providing an integrated service that can include house hunting, architectural design, engineering, construction, interior design, furniture design and decoration, being at all times responsible for all the stages of the process.

We exist to think and create, with basis on the study of the particular relation between the inhabitant and the space, to renovate with great respect for the history and tradition of all the materials.
