Professional Experience and Curriculum Vitae

One very talented young man has recognised the absence of clarity of meaning behind most modern illustration and has chosen to address it, juxtaposing a refined focus with sophisticated, witty aesthetic sensibility. Danny Allison's illustrations are laconic, dry and direct. His strong photographic background marks a profound heritage in his style, sometimes giving his compositions a poignant realism, and often adding some very welcome Python-esque comic relief.

Previous Clientele

Leo Burnett

Marlboro

Time Magazine

Time Out London

Wanderlust

BBC

The Big Issue London

Times newspaper

Manchester United
