## Professional Experience and Curriculum Vitae

I have been active as an expressive artist for a long time. My education I received at the Art Academy in Den Bosch for one year, supplemented with different courses in various disciplines. So actually I am a self-taught artist. I work on paper and canvas, with collage, pencil, watercolor, oil and acrylic, often in combination. With these means I create diverse work, from cheerful nursery art and illustrations to pop-art and abstract art. For several years I am working with digital photography, emerged from photographing my paintings. Currently I combine especially photography with art. In my collages I also use pictures that I made myself and edited digitally.

## Painting Netherlands

A black and white photograph of a person in silhouette painting a ship on an easel. A large yellow circle with handwritten text is overlaid on the top half of the image. The text inside the circle is: "I got it from a good mathematician. He gave me a good method for finding the area of a circle." The person is standing on a sidewalk next to a wall, painting a ship on a canvas. A small box is on the ground next to the person. The background is a wall with a large yellow circle overlaid on it. The circle contains handwritten text in a cursive script. The overall image has a high-contrast, artistic feel.
