Professional Experience and Curriculum Vitae

My passion for design and illustration has given me the opportunity to work on many different projects with many influential clients.

This has enabled my illustration style to evolve - as true art should do.

My use of a variety of mediums has meant the wide application of my work onto ceramics, stationery, giftware, textiles, greetings cards, and also scientific publications. Creativity and innovation inspire to go that one step further to create a style, product, or concept than can fulfill a clients needs, and I am frequently looking for more ways to showcase my designs.

Previous Clientele
