Professional Experience and Curriculum Vitae

I'm a graphic designer born and raised in good ole Burbank. I love being a designer and I have a deep obsession with typography (kerning is a very soothing experience).

Over the past several years I have worked in multiple design industries (fashion, mobile, events and government) and in a wide range of working environments (design firms, corporate industries and small start ups). I am very driven and being busy keeps me sane so a fast pace and long hours will never be a problem.

I am currently seeking full-time and freelance work.

Previous Clientele

TigerText, LAmade, The Hendershotts, LA Birdie, Pak-A-Roo, Talbot Design Group

Awards and Accolades
