Professional Experience and Curriculum Vitae

I'm a creative girl that use everything to create. Specialised in tangle patterns before their boom in XXI's stressed society, I mean more than 10 years designing this kind of art - Google Digital Certified - Three languages: spanish, french and english. Settle down in South of France. Self-paced learned. Very dinamyc woman and energizing. im stubborn until i find somebody interested in my works. Tired of hearing "this detail is impossible to do by hand, this desing is made with a computer"...while you see other brush works that to understand it you must to be under the most powerful drugs.

Previous Clientele

I don't have any customers nor i didn't work for anybody, my work is not interesting.

Awards and Accolades

My professional life nothing related to my artistic life, so i consider that is not relevant talking about my professional life.

Awards and Accolades

the best awards came from the people who loves me
