Professional Experience and Curriculum Vitae

Chicago photographer Erich Schrempp has been crafting custom imagery for loyal clients since 1981. Chicago is a city of manufacturing and architecture, so it comes as no surprise that his portfolio showcases the beauty of the made object and the designed space. Erich's industrial art pieces are of particular note. From a 25 cm wide video installation to a mural 14 m across, his photographs celebrate the simple elegance of the well made product seen in a new light. Erich creates new imagery at his downtown studio or on location anywhere.
