## Professional Experience and Curriculum Vitae

I am a 19 year old graphical illustrator/designer living in Walnut, CA, in the United States. I got into design/illustration around 2003, and have been progressively pushing myself in the field since. After a brief hiatus this year, I'm finally back to create more works, grab more clients, and create a new portfolio over at <http://projectsd.net>. I currently attend California State University, Fullerton, as a Graphics Design/Illustration Major applying for a BFA. I am a Sophomore and I like to spend time hanging out with friends or just doing whatever.
