Professional Experience and Curriculum Vitae

Mr Fullarton is a Scottish born, San Francisco based visual artist and a man with very low expectations. He is therefore seldom disappointed and lives a life filled with boundless joy. He has spent most of his somewhat checkered artistic career attempting to create a piece of artwork that doesn't have words written on it. So far he has failed dismally. In his leisure time he enjoys a variety of smoked cheeses despite lingering doubts about their textures. Perhaps his most prized talent is his uncanny ability to stay out of the way. Like many other people he maintains a website who's address is his name with .com at the end.
