Professional Experience and Curriculum Vitae

I sketch. Draw. Get bleary eyed from staring at the screen for much too long.

HI, I'M JEFF

I'm a lifestyle & fashion illustrator and designer based out of Toronto, Canada. I grew up with pencils and studied with paints and found a calling when computers were added to the mix. I apply a range of both traditional and digital techniques to the projects that I encounter, and thrive on those creative challenges of creating something new.
