Professional Experience and Curriculum Vitae

Kjetil Hasselgaard is a Norwegian photographer based in Oslo. His main focus is aimed on working towards fashion and advertisement.

After graduating from Oslo Photo Art School, he began assisting one of Norway's leading fashion and commercial photographers, Morten Qvale. Combining his own experiences as an artist with inspiration from the wealth of creative photographic techniques and big budget productions was essential for developing his own visual language and technical skills.

Kjetil is known for his strong portraits and beautiful lighting. Understanding natural light, how the light moves, draws details and thereby gives character to people and objects are key elements in his pictures.

He strives for perfection and works continuously to evolve his craft as a professional photographer. His main goals are to give each client individual attention and deliver high quality products on an international level.
