Professional Experience and Curriculum Vitae

MARC ATLAN IS AVAILABLE FOR FREELANCE ART DIRECTION & DESIGN.

BIO:

For the past 15 years, Marc Atlan has been creating his own brand of strong and stunning Art Direction for some of the most powerful visionaries in our image-oriented culture.

He has worked with many powerful international names from Rei Kawakubo at Comme Des Garçons, who gave him his first chance, to Philippe Starck who referred to him as a "creative volcano."

From launching the first perfume of the exclusive yet ubiquitous Helmut Lang in NYC, to helping the sexy perfectionist Tom Ford successfully reshape the house of Yves Saint Laurent in Paris.

He has also designed books for Taschen, identities for Joe Pytko, movie posters for Oliver Stone, catalogues and visuals for Dior and Prada Beauty.
