Professional Experience and Curriculum Vitae

Having been in the Houston Texas area for 30 years, I have acquired quite a few images of the city. Many of these images will be posted here for sale as well as others in some of my travels. Most of my work is in nature and landscape however I have quite a lot of commercial, product, portrait and wedding photography as well. Take a look at the galleries and feel free to leave some feedback on my work. I am always open for comment.
