Professional Experience and Curriculum Vitae

I am a commercial photographer in Seattle who specializes in architecture, food, and products. I also do many people oriented assignments for corporate communications and social service agencies.

I photograph a lot of food (www.shootingfood.wordpress.com), yacht interiors (www.boatphotos.wordpress.com), and architectural residential and commercial interior photos (www.shootingarchitecture.wordpress.com). My free time is now spent doing landscape and nude photography. See the work. www.photos4landscape.wordpress.com and <https://mike-penney.pixels.com> and <https://thenudephotograph.wordpress.com>

Previous Clientele

Lots of small companies. Really, am not much interested in working for big corporations. I want to work for the people who own their own company.

Awards and Accolades

Got a job at a newspaper in 1967. Got a degree in Journalism in 1972. Got a new camera in September of 2015. The rest is just photographs, hundreds of thousands of them.

Awards and Accolades

Mostly the awards I have received have been for photojournalism. I worked for a couple small newspapers over the years. Journalism people like contests. Commercial clients do not. The journalism thing ended in 2010 when I quit doing newspaper work.... and a lot of newspapers all over the country tanked. Probably won 50+ awards... landscape, portrait, feature news, breaking news. Society of Professional Journalists... and Catholic Press Association.
