## Professional Experience and Curriculum Vitae

Greetings! My name is Nick and I have been a graphic designer for 5 years. Most of my knowledge has been self-taught, though many wonderful mentors in various disciplines have helped illuminate the way.

My favorite types of projects include logo design, any forms of publications--whether it be brochures, flyers, posters or booklets. I also enjoy designing clean websites that are visually pleasing and very user-friendly. I like to create that synergy within a company; the flow of colors and concepts throughout all marketing and administrative materials.

Though my expertise is not in web programming, I do enjoy WordPress installations for portfolio sites; photographers, artists, musicians, chefs, and so on.

Please take a moment to visit my live gallery, updated regularly with new projects at [www.nickbissel.com](http://www.nickbissel.com)

All the best,

Nick Bissel
