Professional Experience and Curriculum Vitae

Cathrine Jordfald and Francesca Spinicci, founders and creative directors of obostudio, are two young designers from the north and the south of Europe. More precisely Norway and Italy.

They met each other in Florence at the design Academy ISIA, one of the most prestigious Design & Communication Academies in Italy.

The “transeuropean” background of the designers is reflected in the fluidity and fluency of their work.

Always adjourned on the latest technologies, trends and materials, they infuse their work with unique personality and mischievous sensibility.

Obostudio's products are savvy, sophisticated but also witty and their ability to tweak expectations is delighting “designknowers” and consumers alike.
