## **Professional Experience and Curriculum Vitae**

I am a French born designer based in Gothenburg, Sweden where I conceptualise logotypes, packagings and brand identities. Modern design and “less is more” concepts are at the heart of my beliefs. I thrive with clients who share my vision of simple, precise and creative aesthetics.

Together with a network including product designers, copywriters, photographers and brand strategists we deliver solid designs with maximum impact.

My portfolio includes projects for prestigious brands such as Greenall's, Designit, Ridderheims and Gancia.

If you would like to learn more about my work, please get in touch.

## **Previous Clientele**

Please kindly get in touch for more information.

## **Awards and Accolades**

Please kindly get in touch for more information.
