Professional Experience and Curriculum Vitae

PLANKTON

A green and future-conscious design-label that focuses on environment ,ecologic design and sustainability.

Our goal is to provide interior products that are produced with a minimal environmental footprint and maximal life-cycle through durable construction and good timeless design with a little poetry and soul.

The small and exclusive collection is produced in the Netherlands and available trough a selected network of dealers. A new design will be presented each year.

Some designs are made of "ECOLOTEK " a new very environment-friendly compostable material developed by PLANKTON.
