Professional Experience and Curriculum Vitae

SIMON PLANT

Automotive & Life On Location

Post Production & HDR Imaging For CGI

Simon Plant is an award-winning photographer with over two decades of experience in the production of location photography.

Shooting for nationally, and internationally known clients, his work is reproduced worldwide.

Whether photographing cars, people or locations, his images share the same unique style and attention to detail from start to finish.

These quiet moments are created with his personal utilization of colour, light and rich tonal values, together with a personal interaction with his subject.

Constantly exploring new imaging technologies and developing new techniques, he was one of the first photographers shooting HDR imaging for Automotive CGI Rendering in the U.K and is as experienced behind the computer in post production as he is behind the camera shooting.
