Professional Experience and Curriculum Vitae

Currently I'm on staff at Venturus Institute, Brazil, where I focus on UI/UX design. I work directly with engineering/front-end devs groups to develop amazing products for Android solutions.

My previous experiences include working at Ciandt, where I designed sites for Johnson & Johnson, Odebrescht, Coca-cola and others. Before that I was at AnimaLamps working on all aspects of their creative campaigns (concept and design). And before that I was a full-time freelancer, with long term contracts working on sites and doing design campaigns for the Microsoft, Itaú bank and Toyota.

I have a background in web/digital design and print design

These days I spend most of my time thinking up great user experiences and doing the creative comps. I work closely with developers and engineers to make sure we are building the best possible sites and products.

Previous Clientele

Microsoft, Coca-cola, Itaú Bank, Odebrescht, Johnson & Johnson, Samsung, HP, Petrobras, Filife

Awards and Accolades
