Professional Experience and Curriculum Vitae

There is a place. Like no place on Earth. A land full of wonder, mystery, and danger! Some say to survive it: You need to be as mad as a hatter. Which luckily I am." And so goes my recent work. Whether it's my bears lumbering about or the penguins waddling back and forth, it's all about creating a narrative. Fable making is a favorite of mine, and I strive to present scenarios for the viewer to ponder, while being visually provocative as well as curiously perverted. This quote from Alice in Wonderland says it all "curiouser and curiouser".
