Professional Experience and Curriculum Vitae

Scott Peck has been producing award winning artwork for a wide range of clients for over 25 years. His use of bright, intense colors, dramatic composition and lighting, and finely crafted linework has developed over time, but his quirky sense of humor has remained the same. Finding a fresh, and always unique, perspective to each concept is what drives his fascination with the illustration process.

When not in the studio, he enjoys spending time in a variety of outdoor activities with his family. Backpacking, camping, fishing and aviation give inspiration and help keep creativity fresh. He currently works from his studio located at his home on a 190 acre Pecan orchard in the countryside north of Dallas.

Previous Clientele
