Professional Experience and Curriculum Vitae

As a child at school, my teachers were a little bemused by my drawings that featured purple skies and yellow grass. I soon discovered that I was colour-blind, and now it's my use of vibrant colour that I feel defines my artwork.

Throughout school, my passion for art grew, and so I went on to study art at college.

I've gained a BTEC 1st in Design at Cirencester College. I've also also acquired a GNVQ in Advanced Art & Design and an Art Foundation Diploma at Swindon College. It was there that I graduated with a HND in Illustration.
