Professional Experience and Curriculum Vitae

Howdy, I'm Eric. Or, as some call me, ThatSummersGuy. I'm an illustrator and graphic designer based out of North Mississippi. I've been doing this for about 15 years now, and my mom totally thinks I don't suck. I don't have the big, fancy Bachelor's degree like some others. I don't go out hunting for awards and recognition. What I do have are the drive, determination, experience and talent to make sure your project gets completed to the highest of standards.
