Professional Experience and Curriculum Vitae

I was born in St. Petersburg - cultural heart of Russia. After graduating from Faberge Professional Art College in St. Petersburg as a jeweller and artist, I moved to Poland with my family and lived there for 8 years. In meantime I was studying at University and became a Master of Teaching.

Now, I am full time artist, painting furniture, canvases, designing commissioned artworks for both public and commercial clients. I've painted all my life, as far as I remember, but just recently I decided to dedicate my life to art and it is so exciting to realize how many people love what I do
