## Professional Experience and Curriculum Vitae

As a well-seasoned graphics professional, I have worked successfully in all aspects of the industry; from pre-press production, animation storyboards, collateral campaign creative, logo design, mobile UI to web page design. My creative mind, tenacious attitude, sharp thinking and varied technical skill set, makes me uniquely suited to always finding solutions to any task set before me—especially the unusual or challenging ones. I get tasks done quickly, effectively, accurately and know how to communicate and work closely with a group. I am an enormous asset to any creative team.
