Professional Experience and Curriculum Vitae

My name is Hennadii. I was graduated from the Faculty of Painting at the Art College. But I did not become an artist in the traditional sense. Now I'm designer and illustrator. A lot of time I devote to microstocks.

My priority themes — vehicles.

Why? Because vehicles are the result of the collective efforts of many people, the best professionals in their field. Every gear is a symbol of era. And I like to recreate the character of this era.

Working towards with realistic vector graphics. My files are very labor intensive and therefore my portfolio is not big. It is my pleasure to do complex files and I'm happy every time when customer chooses my work.

Please do not hesitate to leave your comments.
