Professional Experience and Curriculum Vitae

Adam Bruzzone originally trained in the field of medical research. However, this background was cast aside when his obsession with photography intensified. The rest is history. Being a 'generalist', shooting anything, anytime, anywhere, his true passion is with natural light and destination photography. He achieves this by getting to the spirit of a place and its people via the interplay of light and lens. Adam has traveled extensively shooting for airlines, hotels, resorts, the wine industry and tourism. Indeed his corporate motto is "all the world's a studio".
