Professional Experience and Curriculum Vitae

I'm an illustrator from Venezuela based in Barcelona. I've been working as a surface print designer for the last 5 years. Alongside I've been developing my own brand: CAYENA BLANCA.

Growing up in Venezuela made me a curious person and a nature lover, my inspiration comes in all sorts of ways but the memories of my childhood and my home country are constant elements present in most of my work.

My love for illustration and for unique handmade products are the forces that push me to invest my free time and my heart on my own business. I'm always searching to offer the best quality on every product we create & ship from our studio in Barcelona.
