Professional Experience and Curriculum Vitae

Comfy Goods was founded from a concept of sustainability. The Monk & Guru Wallets are the first from a line of products that will be launched. Both wallets are available for pre-ordering on Kickstarter (<http://kck.st/1Ed3eTW>)

Monk & Guru Cork Wallets are slim and elastic cardholders created from sustainable resources. These minimal and modern wallets provide excellent protection for your cards and folded cash. Both wallets are made from high quality natural Portuguese cork fabric, a renewable and biodegradable raw material. The wallets are laser cut for precision, and hand stitched with waxed threads for durability.
