Professional Experience and Curriculum Vitae

Photographs are meant to remind us moments in time...

My photographs are about reliving that emotion at that time...

This is what drives my passion for photography

My journey into photography began while traveling all over the United States and parts of Europe. I wanted a way to take the many interesting people and breathtaking places home with me so that I could relive those memories and share them with others.

Whether it's a bicycle race or a senior portrait, it's all about capturing that one moment that happens in a split-second. From watching an athlete's defeat or triumph or seeing a person's true personality shine through.

Previous Clientele

Phoenix Woman's Magazine, MyTekLife Magazine, Nils Lofgren
