Professional Experience and Curriculum Vitae

My name is Howard Kuflik and I have spent the last 20 years in the business of advertising, product, people, catalogue and event photography. I have worked with some of the largest companies, advertising agencies and magazines and traveled from coast to coast. I work with four different camera formats, own a ton of lighting and grip equipment. I also have spent countless hours taking pictures and working productions of all sizes and complexity. I pride myself on my ability to solve almost any problem or situation encountered on a shoot and I approach each assignment as a collaboration. Whether it is on location or in the studio, my goal is to cater to all your photographic needs. Please take a few moments to review the samples on my web site. Portfolio available by appointment.
