Professional Experience and Curriculum Vitae

Aaron Jasinski graduated from Brigham Young University with an BFA in art and design. He is currently based in Seattle, Washington where he works as an illustrator and artist. His paintings are primarily figurative, frequently focused on conveying the emotions of his chosen subjects. The bold color schemes of his compositions are undoubtedly the most obviously striking feature of his work, but the the expressive faces and postures of his subjects are what enable viewers to connect with his work on a personal level.
