Professional Experience and Curriculum Vitae

My name is Thibault Meunier and I am a graphic designer & illustrator, working under the name LOKHAAN. I graduated in 2007 from Sainte-Geneviève Institute in Paris with a degree in Film & Animation, then worked for 3 years in the animation industry before becoming a freelance artist.

I am adaptable and innovative, and always open to new challenges and opportunities. My clients in the past have included magazines, clothing companies, and sports teams, to name a few. My portfolio ranges from prints, typography, and logo designs; to magazine spreads, website design, poster design, album covers, and apparel.

As a designer and artist, I have a great reputation for my attention to detail, timeliness, and communication. My work is a labour of love and I take great pride in everything that I do. When working on a project, I give it my entire focus, from start to finish. I take inspiration from the world around me and I am always open to my clients' ideas and input.

I greatly enjoy being able to work closely with my clients, finding out everything there is to know about their business, the projects that they need me to be involved in, and where they want to take their company. It is always fun to be part of the growth of a business.

If you are interested in working with me or have any other queries, please feel free to contact me as soon as possible.
