Professional Experience and Curriculum Vitae

A creative's work should speak for itself. Instead of talking about me I'd rather talk about our clients. Especially ideal clients

Our ideal clients are entrepreneurs and small business owners who want to promote their vision, bring a product to market or create awareness for their service offerings. We have been very successful working with accelerators to help start-ups move to the next level, or with mergers & acquisitions situations where a new vision needs to be established.

We love working with people who are at the forefront of innovation, who are motivated by their purpose and are clear and ambitious about where they want to go. People who understand the connection between their brand and its intended audience, who are not afraid to stand out, are open to unconventional ideas reflecting authenticity, and determined to make a difference that eventually builds a legacy. Those are the kind of people we like to work with: Smart, intelligent, open minded entrepreneurs who understand that in business the "why" is as important as the "what" and the "how", and that money is not the sole motivator in business, rather the currency of respect.

Previous Clientele

Apple Germany, Softlab, HITACHI, SHARP Industries, TSL Hong Kong, Conde Nast, Easton Foundations, Gruner & Jahr, Der Spiegel
