Professional Experience and Curriculum Vitae

My name is Jasper Hesseling and I am a independent 3d artist. I have a studio in Utrecht where I produce all my work under the name Mayonnaise. This name came up because I sometimes have the feeling that I create the visual sauce for concepts and ideas next to the fact that it is a very popular sauce in the Netherlands to emphasize my roots.

I work in several 3d applications but my preference goes out to maxon's cinema 4d. However I do use cinema 4d in combination with other applications such as; After Effects, Photoshop, Unity3d and Zbrush. I work in several fields, as long as it is related to 3d graphics and animation. The areas that my skills cover are;

- character design
- character rigging
- character animation
- 3d modeling
- texturing
- motion graphics
- visual fx
- visual fx supervision
- compositing
- animation
- illustration
- game modeling
