## Professional Experience and Curriculum Vitae

Going back as long as I can remember, my favorite word was always “why.” Why can’t I stay up late like my brother? Why can’t a seven-year-old drive a car? Why can’t we have mac & cheese for every meal? Why is that logo so doggone big?

This curiosity serves me well in my role as a Creative Director. It helps me approach marketing problems with the “beginner’s mind.” It helps me sift through the baggage, conventions and preconceptions that engulf a brand. It helps me identify the ONE thing that makes customers excited, prospects curious and competitors nervous. And then a few more “whys”: “Why can’t we share our clients’ greatness through every encounter a shopper has with them?” and “Why can’t we promote this in a way that respects the consumer and makes her part of the communication?”

## Previous Clientele

Partial list:

Communications & Technology: Sprint, Comcast (Acquisition, Branding & B-to-B), Examiner.com, Dell Computers, Plantronics.

**Amazingly, one airline can get this man from  
Spokane to Portland using less fuel than a car.**

---

We're not kidding. Horizon Air's fleet of Bombardier Q400 turbo props are so efficient, they can transport each of its 76 passengers more than 400 miles using less fuel per person than it would for each passenger to drive a car that same distance.

Kinda helps you rethink the way you think about air travel, doesn't it?

Did your dressing come from nature?  
Or some guy in a lab coat?

With all their preservatives and artificial flavors, most dressings often resemble a science project more than an opportunity for healthy eating. Litehouse refrigerated dressings, on the other hand, offer a more natural choice. No MSG. No Trans Fat. No Heat Processing. And nothing artificial. In fact, Litehouse Dressings are so fresh, you'll find them right there in the refrigerated produce section with the FRESH veggies.
