Professional Experience and Curriculum Vitae

Art and science lover, traveler, coffee friend and a dreamer. My name is Mariana Mladenova.

Always serving up something distinct. Always seeking interesting problems to solve. I grew up with a desire to go to faraway places, see fascinating things, and meet interesting people. Nothing's changed. Except that now I use my skills and knowledge (and a computer) to cross boundaries - mental, geographic, boundaries between arts, people and cultures - in the name of idea. I care about making design that transcend time and trend, and move minds and bodies. This is who I am.
