Professional Experience and Curriculum Vitae

Oleg is an illustrator and artist from Russia, primarily engaged in magazine and editorial illustration work. His current clients include Esquire Russia, RBC Russia, Red Bull, Jacobin Magazine, ChillHop Music, and many others.

He successfully combines in his work the tendencies of modern illustration, the aesthetics of classical Soviet illustration, and expressive techniques of ancient Russian icons.

Such a mix enables Oleg to see each task from a new angle, giving his illustrations a reasonable amount of eccentricity and madness. He looks at the world carefully in order to notice beauty even in non-obvious places, this is the main idea behind his work. He is represented by Illustrationzone.com
