Professional Experience and Curriculum Vitae

I am a cross media artist, working in the field of photography, video, design and new media. Combining media and also the combination of art and (scientific) research plays a role in my work. Often my work is conceptually dealing with our viewing habits and the effect of images on our daily life. I am interested in how we perceive images, how our media culture influence the way we look at things and where the limits of our perception are.

Previous Clientele
