Professional Experience and Curriculum Vitae

Tom Troy - Owner, TroyDesign, Summerfield, Florida.

I'm an Industrial Designer who creates products that identify & define the company that makes them while working with people that value great design and design excellence as much as I do. At TroyDesign I offer a total design service from napkin sketches to 3D with emphasis on concept development, design illustration, toy design and inventing for major markets. I always maintain the highest standards of design and have done it "on time" and "on budget" year after year. If you're interested in competent, professional and creative design then let's continue this as a dialogue.
