Professional Experience and Curriculum Vitae

Tiffany and John have been working collaboratively for about 7 years now. The two first met in art school and quickly formed a bond, both personally and creatively. The partnership has evolved over the years and created a singular vision from the two creative minds. From editorial to advertising, their work always demonstrates that vision. In 2008, their work was recognized by PDN magazine as they were named one of the "PDN 30" photographers to watch. 2009 saw them honored in the Surface magazine "Avant Guardian" issue. John and Tiffany continue to take on a variety of projects from their Brooklyn-based partnership.
