Professional Experience and Curriculum Vitae

I'm a colombian photographer and designer my work is focused in find artistic pathways to melt traditional cultural roots with a global worldwide vision. Right now my goal is to experiment with mixtures between classical (analogic) and digital techniques of representation, capture and print of images; trying to find a personal way to express my vision and feelings about a lot of topics.

I'm looking for my place in a world over populated and full of communication media but also full of isolated persons in tiny places, meaningless works and lacking of big dreams beyond money or fame.

I try to reflect in my work my concerns about my role like a man and an artist in a process between traditions and preconceptions and more post modern perceptions about my self, my sexuality, my place and my future.

Between traditions, rituals, history and a little dose of nihilism and a hedonistic search I try to find equilibrium. Im a bipolar person, my work is a catharsis, and a declaration of pride about my condition; my art pieces try to talk about my country, our wars, our pain, our dreams, our cultural melting pot and our never ending search of happiness.

Previous Clientele

Socolquim, Ministry of Rural Development - Group of Investigation in Macromolecules.

Ministry of Culture, Colombia.

Piisani Design Studio.
